SRT411 Assignment 0

Rashmi Chauhan March 1, 2019

Introduction to Assignment

For this particular assignment, I am going to perform To-do list as provided in the link ¹. With that, I need to convert the file with .rmd extension to .pdf extension using knitr. In addition, its also helpful in learning content like ², ³, ⁴, ⁵, ⁶, ⁷ from the website. And finally, I will learn how to make repositiories to present my files on github using my account credentials.

```
The TO-DO

1)
((2018-2014)/(2014-1999))*100

## [1] 26.66667
2)
a=((2018-2014)/(2014-1999))*100
a

## [1] 26.66667
3)
sum(4,5,8,11)

## [1] 28
4)
plot(rnorm(100))
```
